

# iQOO Z11 Turbo India Launch & Price Guide (2026)

## Overview

The iQOO Z11 Turbo is expected to launch in India in 2026 as a performance-focused mid-range smartphone. It targets gamers and power users who want flagship-like speed without paying premium flagship prices.

## Expected India Launch Date

Based on iQOO's previous launch cycles, the iQOO Z11 Turbo is expected to arrive in India between March and June 2026.

## Expected Price in India

The iQOO Z11 Turbo is expected to be priced between ₹22,000 and ₹26,000, making it highly competitive in the gaming-focused mid-range segment.

## Expected Key Specifications

- Processor: Mid-premium MediaTek Dimensity or Snapdragon chipset
- Display: AMOLED, 120Hz refresh rate
- Battery: 5,000mAh or larger

- Charging: Fast charging support
- Software: Android 15 with Funtouch OS

## Real-World Performance Expectations

The iQOO Z11 Turbo should handle popular games like BGMI and Call of Duty Mobile smoothly at high settings. Thermal management and battery efficiency are expected to improve over the Z10 Turbo, offering stable long-session gaming performance.

## Who Should Buy This Phone

- Mobile gamers
- Performance-focused users
- Buyers looking for long-term value under ₹25,000

## Who Should Skip This Phone

- Camera-first users
- Premium design seekers
- Clean UI enthusiasts

## Final Verdict

If iQOO prices the Z11 Turbo correctly, it could become one of the best gaming smartphones under ₹25,000 in India in 2026.
