1. WHAT ARE BLOX FRUITS CODES?

Blox Fruits codes are **free reward codes** released by the developers, **Gamer Robot Inc.** Blox Fruits is an adventure game on Roblox first released on January 16, 2019, and has accumulated over **58 billion visits** — placing it among Roblox's all-time most visited games.

To reward their massive player base, Gamer Robot drops codes from time to time. These are totally free. No Robux needed.

Codes can give you **Stat Resets, titles, Money, or a timed 2x EXP multiplier**. That's a big deal — especially if you're grinding through the Second or Third Sea.

■ The duration of 2x EXP stacks and saves over rejoins. Redeem multiple codes back-to-back and bank all that EXP time before you even start grinding!

3. HOW TO REDEEM BLOX FRUITS CODES — STEP BY STEP

■ On PC / Desktop

Redeeming Blox Fruits codes on PC takes under two minutes.

Step 1	Open Roblox and launch Blox Fruits. Wait for the game to fully load.
Step 2	Pick your side — Pirates or Marines — if prompted.
Step 3	Look at the left side of your screen. Click the small gear icon . The Settings menu will appear.
Step 4	Select the Redeem button within that menu.
Step 5	Click into the "Enter code here" box. Paste or type in your code carefully.
Step 6	Hit Redeem! and your rewards will arrive instantly if the code is valid.

■ On Mobile (iPhone, Android & iPad)

Good news — redeeming on mobile works almost the same way. It takes under a minute!

Step 1	Open the Roblox app and launch Blox Fruits.
Step 2	Once in-game, look for the present/gift icon near your compass at the bottom of the screen.

Step 3

Click the Present icon near the compass, enter a working code, then click the **Redeem** button.

Step 4

Your reward will appear on screen instantly.

■ **Don't type codes manually on mobile. Copy from this guide and paste directly into the code box — saves time and avoids typos.**

■ How to Copy and Paste Blox Fruits Codes

You should **never type codes by hand**. Codes are case-sensitive — a single wrong capital letter will cause the redemption to fail.

PLATFORM	HOW TO COPY	HOW TO PASTE
PC	Ctrl + C	Ctrl + V
Mobile	Long-press → Copy	Long-press input → Paste

4. WHAT REWARDS DO BLOX FRUITS CODES GIVE YOU?

■ 2x EXP Boost	Most common reward. Timers stack additively — two 20-min codes = 40 mins total. Multipliers cap at 2x. Stack before grinding!
■ Stat Reset	Most valuable reward. Lets you redistribute stat points without spending Beli. Grab KITT_RESET, Sub2UncleKizaru & SUB2GAMERROBOT_RESET1.
■ ■ Exclusive Title	Cosmetic in-game title. Not game-changing but free. Redeem BIGNEWS.
■ Free Beli	Small amount of in-game currency. Redeem Fudd10. Every bit helps!

■ **Expert Tip: Most players waste EXP codes in the First Sea. Save them for Third Sea (Level 1500+) where every minute is worth 3x more grinding time.**

5. HOW TO MAXIMIZE YOUR BLOX FRUITS CODE REWARDS

■ Stack All EXP Codes Before You Grind

Don't redeem one EXP code and start playing. Redeem **all of them first**. Get the maximum EXP time before you even throw a single punch.

■ Use Codes at the Right Sea Level

SEA	LEVEL	CODE VALUE
First Sea	1 – 700	■ Good
Second Sea	700 – 1500	■ ■ Great
Third Sea	1500+	■ ■ ■ Best

■ Save Stat Resets for Build Changes

Don't burn stat resets randomly. Save them for when you switch fruits or want to respect from a sword build to a fruit build. Stat resets normally cost Beli in-game — these codes save you real money.

6. WHY IS MY CODE NOT WORKING? (FIX IT HERE)

■ Code Has Expired	Many codes do not have a mentioned expiration date — they may expire unexpectedly. Always check a recently updated code list before redeeming.
■ Case-Sensitivity Error	This is the most common mistake. A single wrong capital letter causes the redemption to fail. Always copy-paste — never type manually.
■ Code Already Redeemed	Each code works once per account. If you already used it, it won't work again — ever.
■ Code Limit Reached	Some developers apply redemption limits on their codes. If a code went viral, it may have hit its limit.
■ Conditions Not Met	Some codes require you to meet certain in-game requirements before redeeming. Check if any conditions are listed with the code.

7. WHERE TO FIND NEW BLOX FRUITS CODES

Code releases have slowed in 2026 — irregular gaps of 2–4 months between drops. Missing one can cost you weeks of free EXP. Here's how to never miss a code:

SOURCE	WHERE	WHY
■ Official Blox Fruits Discord	discord.gg/bloxfruits	Codes drop here first
■ Gamer Robot on Twitter/X	@GamerRobotInc	Real-time announcements
■ Gamer Robot YouTube	youtube.com/@GamerRobot	Milestone video codes
■ Trusted Codes Page	nexdigit.com	Check after every update

■ **How We Research:** We monitor Gamer Robot's official Twitter/X daily, check the official Discord, test each code personally, and update this page within 24 hours of any new drop or expiry.

8. FREQUENTLY ASKED QUESTIONS

- **1. How often do new Blox Fruits codes release?**
 - Not as often as before. In 2024 there were around 15 code drops; 2026 has seen roughly 6 after Update 20 stabilisation. Check after every major game update.
- **2. Can I use Blox Fruits codes more than once?**
 - No. Each code can only be redeemed once per account. Once used, it's gone for that account permanently.
- **3. Do Blox Fruits codes expire?**
 - Yes. Some codes last only a week, and given they only drop every other month, you won't want to miss your chance. Redeem immediately.
- **4. Are Blox Fruits codes free?**
 - 100% free. You don't need Robux or a paid subscription. Just enter the code and collect your reward.
- **5. Where is the redeem button in Blox Fruits?**
 - Go to Settings (gear icon) → Redeem button. On mobile, tap the present/gift icon near your compass.
